

2000

Green Piling Limited founded in March 2000 by David Green with the help of Investors. Working from a loaned porta cabin office based in Stockton on Tees with one crew (both still employed at Green Piling Limited) and a 16 year old piling rig.

2007 – 2008

The Company rebranded, introduced a new logo and launched a new website.

In 2008, Green Piling moved to new larger premises in Renishaw, Sheffield, which incorporated offices, a workshop and yard storage.

We purchased our first CFA rig in 2009 to ensure we continued to stay competitive in the market.

2003 – 2006

By 2003, the business had grown and moved to larger offices in David's home town of Rotherham, South Yorkshire. Over the next two years; extra staff were employed and new rigs invested in.

ISOQAR ISO 9001: 2000 was achieved in 2006.

MISSION STATEMENT

To strive to make continuing improvement in all aspects of the business with a view to establishing and maintaining Green Piling Ltd amongst the market leaders of its type in the specialist field in which it operates and to carry out its piling operations to the highest possible standard.

2010-2015

The Company has gone from strength to strength. We have added a further 7 rigs over the last five years and now employ 35 people. In 2014 we started hiring out our rigs and equipment in order to widen the services that we offer.

2015 will be our strongest year yet, with our highest turnover predicted for financial year 2014/2015.

We continue to make plans to further expand our fleet and product range.
