

Greenpiling

Tilbury Docks - Cemex

Details

Green Piling installed Steel Tubular piles for a new cement grinding plant at Tilbury Docks. The piling works took place close to an existing building and inside a restricted access building where partial removal of the roof was required to enable the leader of the piling rig to be erected for the internal works. The piles were designed to a driven length of 25m using 12-14m length piles with interference mechanical joints.

Key Information

Duration	1 Week	Number of piles	24 Piles
Rig	Junttan PM20	Pile Loads	Up to 250kN
Piling System	Steel Tube	Pile Lengths	25M
Ground conditions	Made Ground/Soft Clay Alluvium and Loose Sand/Partial Sand and Gravel/Upper Chalk	Testing Regime	Dynamic
