

Greenpiling

## National STEM Centre – University of York

### Details

CFA piling was chosen due to the close proximity of other building and the fact that the university would be occupied throughout the installation of the piles CFA offers a quieter installation solution which is ideally in these conditions.

The piles were installed over a period of three days and the project was on time and within budget.

### Key Information

<b>Duration</b>	1 week	<b>Number of piles</b>	24 Piles
